

Call for abstracts, papers and posters

The board of EUROSLAG agreed to hold the

12th European Slag Conference (Slags for the Future, the Future of Slags)

On suggestion of UNESID (Spanish Steelmaking and Transforming Association) and Siderex (Steel cluster in the Basque Country), the location and the date will be:

from 23rd to 25th of October 2024 in Bilbao, Spain

To assist the planning of the conference organized by UNESID/SIDEREX with the collaboration of PLATEA (Spanish Steelmaking Technological Platform), we welcome your submissions of abstracts for papers and posters. The EUROSLAG Conference Committee will review and select those for presentation.

The themes for papers will be:

- Influence of the decarbonization process on the characteristics and availability of both future iron-based (from pre-reduced iron) and EAF slags.
- Influence of legislation and standardization on slag uses including technical and environmental issues (REACH, Construction Products Regulation, Sustainability, etc.).
- Innovative Production and processing, characterization and uses of slags
- New fields of application and results from and new frontier research.
- Recovery of critical elements from metallurgical slag.

Please **send preliminary abstract for papers** (no more than 20 lines at arial 12 points) **with title and author by email** to papers@euroslag2024.eu to arrive not later than **April 30th, 2024**. All those papers finally selected to be presented at the conference will be granted with a free inscription¹ to the conference.

Further information will be published on the website <http://www.euroslag2024.eu>

It is also open a **call for posters**. The main author of a submitted and eligible posters will be granted with a 30% reduction in the inscription¹ (and also a free access to the gala dinner in case of students of degree, university master, predoctoral and vocational education and training). A preliminary abstract for posters should be received by **April 30th, 2024** at papers@euroslag2024.eu.

¹ The discount for final selected papers (presentations) and eligible posters applies to the relevant tariff.
